

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 210210-0018]

RTID 0648-XA789

**Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by
Catcher/Processors using Hook-and-Line Gear in the Central Regulatory Area of
the Gulf of Alaska**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher/processors using hook-and-line (HAL) gear in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the annual allowance of the 2021 total allowable catch (TAC) of Pacific cod by catcher/processors using HAL gear in the Central Regulatory Area of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), November 15, 2021, through 1200 hrs, A.l.t., December 31, 2021.

FOR FURTHER INFORMATION CONTACT: Allyson Olds, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The annual allowance of the 2021 Pacific cod TAC apportioned to catcher/processors using HAL gear in the Central Regulatory Area of the GOA is 518 metric tons (mt) as established by the final 2021 and 2022 harvest specifications for groundfish in the GOA (86 FR 10184, February 19, 2021).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the annual allowance of the 2021 Pacific cod TAC apportioned to catcher/processors using HAL gear in the Central Regulatory Area of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 502 mt and is setting aside the remaining 16 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher/processors using HAL gear in the Central Regulatory Area of the GOA.

While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the directed fishing closure for Pacific cod by catcher/processors using HAL gear in the Central Regulatory Area of the GOA. NMFS was unable to publish a notice providing

time for public comment because the most recent, relevant data only became available as of November 12, 2021.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 15, 2021.

Ngagne Jafnar Gueye,

Acting Director, Office of Sustainable Fisheries,

National Marine Fisheries Service.
